# OUR STORY

## A LITTLE BIT ABOUT US

Gem Alchemy Creations, founded in 2019 by Charles Fletcher & based in Sedona, AZ is a global hand-crafted artisan jewelry brand that produces elegant one-of-a-kind pieces.

Charles offers a range of one-of-a-kind wrist wraps & necklaces for women & men in various forms & colors — designed with hand-drilled choice stones, hand-dyed silks & some rune symbols, each element selectively sourced from all over the world.

These uniquely energized pieces can be custom-wrapped & adjusted as desired — they are elegant, stylish & powerful artistic statements that are light to the touch & as unique as each wearer.

## ENERGIZED, HAND-CRAFTED JEWELRY

Charles unites these elements intuitively to create high-resonating jewelry that carries healing & activating properties via the stone & rune selection, alchemically infused within his artistic creations.

All jewelry in this collection is energized during the creation process with high-frequency vibrations — which assist people to further awaken deep within them the principles & special aspects each stone, gem & symbol carries inherently. Many people have felt this energy activation immediately as soon as they come in contact with the jewelry, & have experienced continued resonance & activations of their inner abilities & strengths while wearing them over time.

# ABOUT THE JEWELRY

Charles personally sources energetic stones, silk wraps, beads, & symbolic metal charms from all over the world to create his unique dynamic jewelry.

Each piece carries a powerful presence — intensionally imbued with love, prayers & activating energies during its creation through vibrational alchemy, which become artistic & decorative adornments that are also energetic activation tools when worn.

People have experienced the inherent vibration in the jewelry, & are drawn to choose specific pieces that resonate with their own personal energy signature coupled with what's resident in each piece (via design & specific stone/rune/color).

By wrapping the jewelry on their body, they merge energetic fields between the jewelry & themselves — which stimulates a further energetic activation within the wearer to assist in heightening & expanding their spiritual consciousness. People are drawn to the feeling they get when they experience these elegant works of art, & they sell out quickly.

Each distinct stone has an innate high-vibrational property & energetic quality. Charles also further activates some of them with select sacred symbols that carry profound energies.

# TESTIMONIALS

*"Something about Charles & the jewelry he's creating is quite exceptional, & I am honored to gift my daughter with a piece that I know that she will treasure & will provide much benefit & comfort to her."*

*"I was really attracted to the combination of silks & stones & symbols... it felt great when I picked it up & was fun to wrap on my wrist in my own way. I felt some kind of energy coming from it & also got an education from you about the certain stone & rune & the energies those carry. I love my new wrist wrap, feels light & easy on my arm, & love the combo of strong & soft materials... kinda like the blending of masculine & feminine energies... I think both women & men could wear them, & cool that the wrap can also be worn as a necklace etc. It makes me feel elegant & love the empowerment of the stone & rune I chose. Thanks, all your pieces are so beautiful."*

## **Custom-Created Pieces:**

*"Charles made necklace & wrist wrap for me using Shungite stone. The quality is amazing & I love the details with the beads & closures. I would absolutely recommend him for any jewelry piece you are seeking. He uses very high-quality materials... and goes the extra mile to make sure these pieces will be right for you. I wear the bracelet wrap every day. It definitely helps me to feel confident & calm knowing that negative energy won't linger around me."*

*"I love all these pieces but absolutely ADORE the one you custom-made for my daughter at my request. I saw that first pic & that is it! You got it perfect, I know that she will love it. My jaw dropped when I saw it!...OH MY GOSH, do I LOVE this wrist wrap! I was going to wait to give as a birthday present but can't resist making an early gift of it. It is spectacular & especially so that it was handcrafted by you. The inscription on the card is divine, I feel its power already & am eager for her to have this as well. I was just so overjoyed to receive this & each step of opening it brought tears to my eyes, so nicely packaged. Thank you again so very much!"*
